

We are in the heart of Grace Bay Plaza in Providenciales, Turks and Caicos Islands and we are proud of it. There is really no excuse to not pop in and just say "Hi" or try a sampler of what is in the cabinets. After shopping, after dining or even before work for one of the best coffee's on island. Grab a breakfast 'bite and a brew' to start the day the right way. We are the only people making Ice Cream in Providenciales and Grace Bay.

You guessed it, we make **Ice Cream**. We have more flavours than you can shake a stick at. We have the usual suspects from **Chocolate, Strawberry, Vanilla, Pistachio, Cookies and Cream and Rum and Raisin**. But that is too easy. Come and see what is in the cabinets this week.

But, be warned, You may become addicted !!

Why not sample some of our insane flavours like **Licorice, Pumpkin, Hokey Pokey, Obamarama in the White House** or **Mojito**

We don't stop there !!

We have now sourced and produced a gorgeous Soursop after demand from our regular customers. The flavours keep on coming.

The Turks and Caicos Islands are a British Overseas Territory, which gives us a great excuse to say;

God Save The Cream _
